

Brass Mini-Regulator

DCG's line of Regulators have proven to be efficient and made of quality materials to minimize any leaks. The DCG's Brass Mini-Regulator is used in combination with DCG's one liter low-pressure steel cylinder.

Specifications:

Inlet Connection: CGA 170

Outlet Connection: 1/8" compression fitting

Inlet Pressure Range: 0-300 psig

Outlet Pressure Range: 0-15 psig

Push-lock outlet adjusting knob

Non-relieving diaphragm

The Brass Mini-Regulators are crafted with safety in mind for leak proof gas applications. The low pressure regulators utilize a CGA 170 fitting. DCG's brass Regulators offers "push-lock" in precision control over gas pressure and features a non-relieving diaphragm to protect your lab environment. The Regulator accepts a 1-15 psi outlet and a 0-300 psi inlet.

Enjoying the quality of DCG's products is just one of many services DCG has to offer. The Brass Mini regulator is ready when you are. Call DCG Customer Service when you are ready to enjoy the benefits DCG products have to offer.

DCG's wide variety of regulators are now available to customers worldwide in a variety of materials and at competitive pricing.
