

Standard Test Method for Flash and Fire Points by Cleveland Open Cup Tester in Accordance to ASTM D 92

DCG has available calibration standards for ASTM D 92 that are used to determine the flash point and fire point of petroleum products by a manual Cleveland open cup apparatus or an automated Cleveland open cup apparatus. These standards are packaged in 200mL amber glass bottles and have been verified by consensus analysis.

Part # DCGFP200

Description: 200° C Nominal Flash Point

Part # DCGFP230

Description: 230° C Nominal Flash Point
