DCG Attends The American School of Gas Measurement 2011 Houston, Texas

DCG Partnership attended The American School of Gas Measurement of 2011 located in Houston, Texas. One of the biggest school's within the United States premiering instruction on subjects of natural gas, pressure regulation, flow control, and other measurement information to bring the natural gas industry to the future for progress. The school is focused on seven main groups, Fundamental Measurement, Gas Quality, Distribution, General and Advanced Measurement, Transmission, Office Procedures and Accounting with also hands-on training.

DCG representatives, Lori Bozdech, Director of Customer Service and Cheryl D'Agostaro, Cylinder Control, greeted friends and clients of the industry and met new individuals that joined this years school of gas measurement.

DCG's very own Chemist, Alejandro Amarin, gave a presentation on Wednesday, September 21st in Salon G of Gas Quality titled Micro Gas Chromatography for Liquid Petroleum Gases. The main content of the presentation was to determine natural gas, refinery gas and liquefied petroleum gas (LPG) compositions using gas chromatography.

CUSTOM STANDARDS

DCG specializes in creating custom standards for the unique specifications of individual clients. Allow us to work with you to meet your needs. No task is too great or too small. 281-648-1894 Option 1.

Customers Enjoyed Lunch With DCG!

During the Gulf Coast Conference held in Galveston, Texas, many customers joined DCG Partnership for lunch at one of the island's premier restaurants "Landry's Seafood House" on Tuesday, October 11, 2011 taking time out for lunch was a great way to show DCG's customers that we appreciate their business. During the Gulf Coast Conference those who attended received information about the petrochemical refining, environmental and the industry trends and regulatory issues.

DCG Catches Big Fish!

DCG Crew joined together to bring home Huge Red Fish in Galveston, Texas on September 25th, 2011. First thing in the morning the fish were literally jumping into the boat with the thanks to Capt. Jaime Cantu, who ran the boat and showed DCG where to find the fish in Galveston Bay. All fish caught were from 36 inches to 39 inches. Many species of fish were caught, such as shark, sting-ray, and much more. The proud fishermen in the photo from left to right are: Cheryl D'Agostaro, Deborah Cantu, Louis D'Agostaro, Kiel Henderson, and Ross D'Agostaro! This could end up being an annual gathering of great fishing!

DCG'S HOLIDAY LUNCHEON

Please join us for lunch with all the holiday trimmings!

DCG would love to see you, provide you a tour of our facilities and have you spend some time with our Chemist Consultants.

WHEN: Wednesday December 14, 2011

Please R.S.V.P.

Call and/or e-mail attendance for luncheon by December 9th, 2011 to Lori @ 281-648-1894 x 206 or email LABOZDECH@dcpartnership.com

DCG Representative Louis D'Agostaro Receives Recognition!

Representative Louis D'Agostaro of DCG Partnership receives recognition for 5 years of service to The American Petroleum Institute. Congratulations to Mr. D'Agostaro for his dedication of volunteering.

The American Petroleum Institute with the help of volunteers such as DCG representatives have been able to develop standards that support the oil and gas industry's efforts to provide safe, reliable and interchangeable products to the marketplace and to ensure the best industry practices are made available to all who might benefit.

DCG's Research, Development and Consulting Services!

Have you ever wondered what that peak was and wanted to get a second opinion? Or, have you thought, how do I get this method developed? DCG has the answer to your problem! For many years, DCG has a Research, Development and Consulting group available for hire. DCG has assembled a diverse team of scientists to handle those more complex customer needs that cannot be met easily. If you're needing an answer call DCG today! We are here to help! Your initial consultation is free, so give **DCG a call at 281-648-1894, Option #1 to schedule an appointment.**

DCG School Update

DCG's School of Chromatography has been a great success! Classes are always filling up so schedule early!

Our schedule is posted on the DCG website at www.DCGPartnership.com. Below we listed our schedule for the next 2 months. If you are interested about our school please call us at 1-281-648-1894 Option #1.

START THE NEW YEAR OFF RIGHT!

DCG School of Gas Chromatography

The DCG School of Gas Chromatography is a hands-on learning experience with a practical, "working situation" approach to GC instruction.

Students will be trained in our laboratory by our own expert analytical Chemists. No prior experience is required. The school is designed for beginner and intermediate level chromatographers.

281-648-1894 Option # 1

customerservice@dcmpartnership.com for more information and class availability.
